PROFILE

I am a third year computer-science engineering student and an aspiring web/mobile developer who is passionate about technology and automation.

PROJECTS

- Present.IO - An Android attendance taking app that revolutionises the attendance taking process. Learned about authentication and database management using Firebase. Used WorkManager for background task and learned how to access permissions in Android.

<https://github.com/steveaugustine/In-Kyoobeh.git>

- Numbur - A number guessing game using HTML, CSS and Javascript. Learned about the DOM.

<http://steveaugustine.xyz/numbur/>

- Blukonnect- Simulating multipoint bluetooth connections.

<https://github.com/steveaugustine/Blukonnect.git>

- Automated attendance - Automated attendance marking using Selenium.

EXPERIENCE

FOSS COORDINATOR, FOCES-CEC, CHENGANNUR – 2022-PRESENT

Actively worked as the FOSS-Coordinator at FOCES, College of Engineering Chengannur. Lead the organisation of a web-development competition called "Center-A-Div" which was held at IHRD-Tharang 2023.

Acted as a point of contact between FOCES and ICFOSS

ACTIVITY COORDINATOR, FOCES-CEC, CHENGANNUR – 2021-2022

Helped in the organisation and scheduling of several events at our college.

CONTENT WRITER, IEEE-CEC, CHENGANNUR – 2021-2022

Wrote clear and informative documents for the content team at the college student branch. Collaborated with team mates in scheduling and organising events.
